Specimen Information

Reference Number: NGM-ABC-002

Name: e.g. Greeny

Species: Naultinus gemmeus (Jewelled Gecko)

Sex: Female

Date of Birth: February 2016

Captive Born / Wild Caught (circle one)

Geographic origin: Banks Peninsula

Distinguishing characteristics:

E.g. pattern, missing toes, scars, regrown tail etc.

• x

Acquisition Notes

Received from: Keeper ABC

Contact: Email: keeperabc@gmail.com

Phone: (01) 2345678 Mobile: 027 123 4567

Permit number: 12345-CAP

Date Received: Saturday 12th November 2016

Age at time of transfer: 9 Months

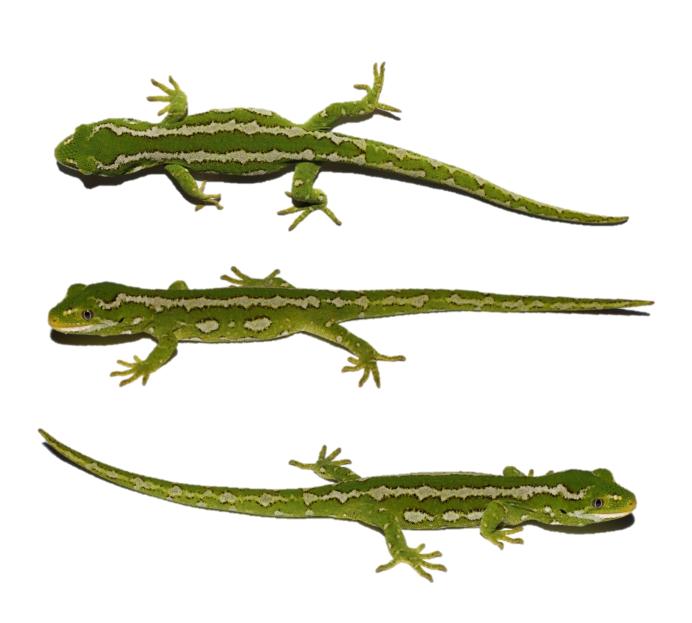

Ancestry Information

Sire: Reference Number: NGM-XYZ-005

Parents: NGM-PQR-010 / NGM-QRS-007 Geographic Origin: Banks Peninsula

<u>Dam:</u> Reference Number: NGM-PQR-003

Parents: NGM-DEF-006 / NGM-GHI-011 Geographic Origin: Banks Peninsula

Behavioural notes

- E.g. Appears to be aggressive to other females.
- E.g. Most active around 10am and 3pm.
- Etc.

Treatment Notes

- E.g. Stuck slough removed from toes (22.05.17)
- E.g. Abrasions on neck treated with Betadine (04.11.18)
- Etc.

Other Observations

- E.g. Ability to change skin tone observed (03.03.16)
- E.g. Observed using refuge sites at ground level (02.04.16)
- Etc.
